

Ratchet Podger Spanner 17mm x 21mm

Twin-sized ratcheting podger spanner with a long, tapered shaft for easy alignment of component holes and a 17mm and 21mm Bi-Hex (12pt) ratchet head for fast assembly. Manufactured from chrome vanadium with a durable black phosphate finish and a hole for safety cord attachment. A professional tool ideal for scaffolding and construction use, precision engineered to ANSI and DIN standards.
