

Tensioner Tool Set - for VAG

This kit brings together three of the most useful tensioner locking pins in one kit. These pins are used to lock serpentine belt and cambelt tensioners fitted to many of the VAG engines.

Additional Information

- Set of 3 locking pins for holding the tension on the cambelt and serpentine (auxiliary) belts on VAG engines.
- Equivalent to OEM Nos. T10115, T40011 - timing belt tension pins and T10060/A - serpentine tension pin.
- Use on tensioners fitted to 1.4, 1.9, 2.5L TDI PD/TFSI.
- For petrol or diesel.
