

Diesel Injector Seat Cutter Set

This set of four diesel injector cutters ensures that the injector seat is bored and faced to the exact dimension when replacing or reconditioning the diesel injectors, avoiding blow back and poor emissions. Supplied with a 3/8" drive T-bar.

Additional Information

- Used for re-cutting injector seats when reconditioning the diesel injectors.
- Set of 4 cutters: 17mm flat cutter with 19mm external diameter for Mercedes-Benz CRD.
- 17mm flat cutter with 17mm external diameter for BMW, PSA & Renault.
- 17mm angled cutter with 21mm external diameter for Fiat & Iveco. 15mm flat cutter with 19mm external diameter for other makes.
- Manufactured from carbon steel with Chrome Vanadium cutters, supplied in a blow mould case.
