

Motorcycle Steering Bearing Press

Designed for the correct installation of bearings on motorcycles. The threaded handle allows greater control of the pressure used to install bearings.

Additional Information

- 5 adaptors for various bearing sizes: 32mm, 36mm, 38mm, 3 x 42mm, 46mm.
- 42mm is the most common size. Three 42mm adaptors included to allow for lost or damage to an adaptor without having to replace the kit.
- Includes bearing seating tool.
- Soft grip handle.
