

Funnel 135mm Red

Fast fill, flexible funnel with filter designed for automotive use. 135mm wide non-spill rim reduces splash for a cleaner, easier refill, whilst the super flexible, extra-long 230mm nozzle is designed to reach difficult access filling points, including rear brake reservoirs. The hose detaches for cleaning and storage and there is an easy grip inset handle. A quality funnel that complies with PAHS and REACH directives, ideal for professional workshop use.

Additional Information

- Fast fill flexi-funnel with filter & inset handle grip.
- Supplied with removable extra-long (230mm) flexible tube, ideal for reaching hard to access tanks.
- Non-spill rim for cleaner re-filling.
- Diameter: 135mm; overall length 550mm; spout diameter 40mm to 18mm.
- Conforms to PAHS & REACH.
