

Caliper Plug Removal Tool - for Triumph, Norton, BSA

Ideal tool for removing the caliper plug from pre-1982 Triumph, Norton and BSA disc brake calipers prior to refurbishment of pistons and seals.

Additional Information

- This tool helps prevent damage to the drive holes in the caliper plug due to the smooth pins.
- Two pin drive.
- 3/8"D or 29mm socket.
- Manufactured from Stainless Steel.
- This product is part of a range of tools for classic British motorcycles.
