

Specialist Automotive Impact Socket Set 1/2"D 10pc

A set of 10 specialist impact sockets that are essential for today's automotive servicing. Featuring a range of automotive fastener types including 3, 5 and 10 point profiles not found in standard sets. These are specialist tools for specialist jobs and are invaluable for the professional automotive workshop. The sockets are all impact quality and supplied on a socket rail to keep all these useful sockets in one place.
