

Crankshaft Holding Tool - for VAG

Used to hold the pulley still whilst loosening or tightening the pulley fixing bolt.

Additional Information

- Designed for TFSi/TSi 1.8 and 2.0L petrol engines found in the VAG ranges (from 2006).
- Equivalent to OEM T10355.
- Specially shaped and hardened pins help prevent the tool falling out when under load.
- Crankshaft pulley (Vibration Damper) holding tool. Use with Engine Timing Tool Kit - VAG 1.8/2.0 4v TFSI (Part No. 5981).
