

Oil Absorbent Drum Top Mats 10pc

Super absorbent oil drum mats with a dimpled pattern for fast soak-up, sized to fit standard 205L oil drums with die-cut access holes for the filler openings. Made from strong, tear resistant polypropylene each pad can hold up to 1 litre of liquid and is suitable for all oil-based liquids, including oils, lubricants, petrol and diesel, with hydrophobic technology to repel water. The mats are white so it is easy to see any spills and monitor saturation levels. Supplied in a pack of ten. Designed to sit on top of drums, these are a simple, effective solution to keep areas free from contamination.

Additional Information

- For use with 205L oil drums. Mat size: 550mm dia. x 3mm.
- Hydrophobic technology that only absorbs oil-based liquids (not water).
- Super absorbent 100% polypropylene fibre construction.
- Absorbency 1L per mat.
- White colour making it easy to see spills.
