

Radial Brake Caliper Assembly Pins

Used on radially mounted brake calipers to allow safe replacement of the brake pads while reducing the risk of the caliper hitting and damaging the ceramic brake discs.

Additional Information

- Applications: Audi Q7, Volkswagen Touareg and Porsche Cayenne.
- Equivalent to OEM T10439.
- The pins are manufactured with a reduced diameter approximately half way up their length which provides a step for the caliper to sit on while the pads/discs are replaced.
- Made in Sheffield.
