

## Jeu de 17 douilles à impact - profil court - 1/2"

A low profile single hex (6pt) impact socket set. When space is limited this set can get the job done. With a projected length of just 30mm for extra clearance when needed in restricted areas. This is a complete kit that includes all sizes from 8mm to 24mm, so the right socket is always available. Supplied on a socket rail for organised and accessible storage.
