

Diesel Fuel Filter Compressor Tool - for VAG

Exclusive to Laser Tools! Diesel fuel filter compressor tool for Audi, Volkswagen, Skoda, Seat, allows the re-assembly of the filter housing without bending or damaging the gasket face or gasket material with hands free operation.

Additional Information

- Designed for vehicles with the metal bodied UFI paper diesel fuel filter.
- Applications: Audi, Volkswagen, Skoda, Seat.
- When fitted, the filter lid is held down and the filter screws can be fitted. The filter lid is compressed onto the filter body with no need to lever against potentially fragile inner wing panels as per VAG guidelines.
- EU Registered Design.
- Spare fuel filter adaptor available - please see Laser Part No. 5139.
