

## MacPherson Clamp Separator Set

A MacPherson strut clamp separator kit that includes 5 “fit and turn” separator bits designed to fit the most common sizes of clamp.

### Additional Information

- Applications include: Citroën, Peugeot, Ford, VW & Audi where MacPherson struts are clamped into the hub.
- Kit includes 3/8" square drive handle with bit holder, together with a 17mm combination ratchet wrench for use where access does not allow the use of the socket & drive handle combination.
- Separator bits: 7.5 - 9.0mm, 5.2 - 6.9mm, 6.6 - 7.9mm, 4.3 - 6.0mm, 12.7 - 16.7mm.
- Manufactured from Chrome Vanadium with S2 steel bits.
- Fast & efficient, holds the clamp open for removal/fitting of the MacPherson strut & hubs.
