

Universal Joint Spark Plug Socket 3/8"D 16mm

A universal jointed, long length 16mm spark plug socket designed to access BMW motorcycle spark plugs with ease. The tool is 165mm long so it can reach deep plugs without the need for an extension bar or adaptors and the ball joint swivel socket head is ideal for accessing modern engines with limited plug clearance. The wobble function is particularly useful for accessing BMW spark plugs which are installed at an angle of $> 5^\circ$, where a standard spark plug wrench does not fit. This professional quality tool has a standard 3/8" square drive and has a rubber insert for reliable spark plug removal and installation.

Additional Information

- Applications: BMW motorcycles F650 (K72), F800 and F800GS (E8GS) 2011.
- Size: 16mm Bi-Hex (12pt) x 3/8"D x 165mm long.
- Outside diameter: 21mm; inside depth: 49.4mm.
- Universal joint head and extra long reach ideal for deep seated plugs.
- Manufactured from chrome vanadium with rubber inserts to protect and hold the spark plug.
