

Lever Action Pump - AdBlue®

Lever action pump specifically for use with AdBlue®. Fits 200L drums or barrels, or 1000L IBC tank.

Additional Information

- Designed for use with AdBlue®, but also suitable for water, lubricants, antifreeze, windshield washer fluid or mild detergents.
- Smooth lever action pump flow rate of 500cc's per stroke / 20L per minute.
- Suction pipes length range: 350 - 980mm. 1.6m flexible delivery hose also included.
- To fit larger 205 or 210 litre containers, an adaptor is available separately - see Laser Part Nos. 60532 or 7621.
- If pump fails to pump after being left for some time run distilled water through and continue. To prevent this, please pump water through before storing.
