

Miniature Combination Spanner Set 3.2 - 5.5mm 6pc

A set of six, small combination spanners sized from 3.2mm up to 5.5mm. They are slim in design, just 100mm long, and manufactured in strong, satin-finished chrome vanadium steel. Excellent for accessing small nuts and bolts, especially when space is restricted. Particularly useful in electronics and model engineering and in the automotive workshop for securing electrical connectors, carburettor linkages & adjusters and speaker mountings.

Additional Information

- Single Hex sizes (6pt): 3.2, 3.5, 4, 4.5, 5mm. Length: 100mm.
- Bi-Hex size (12pt): 5.5mm. Length: 100mm.
- Small sized spanners, ideal accessing small fixings, with slim design perfect for use in restricted spaces.
- Manufactured from satin finished chrome vanadium.
- Mini combination spanner set with larger sizes from 4mm to 11mm available, please see Laser Part No. 2352.
