

Stainless Steel Funnel 200mm

Large 200mm stainless steel funnel with handle and filter, with large deep-sided capacity and wide mouth for fast filling. Manufactured from heavy-duty stainless steel the funnel has excellent resistance to rust, stains, chemicals and corrosion and is stronger and easier to clean than plastic funnels. Spun construction body so there are no seams to trap dirt and germs, the funnel can also tolerate high temperatures so it can be sterilised with heat and because stainless steel does not absorb odours it is suitable for catering use. A very useful funnel for a wide range of uses around the home and workshop.
