

Pound Thru Screwdriver Set 2pc

Pair of Pound Thru screwdrivers in Phillips, PH3 and Flat, 8mm profiles, ideal for removing seized fasteners. The Hex shaft continues through the handle for strength & impact resistance and the set are manufactured from satin finish chrome vanadium for durability. The pound thru design allows the driver to be struck with a hammer to help release seized fixings and the reinforced shaft has a hex drive at the handle when more leverage is required. A high-quality set with soft-ergonomic handles and wide non-slip rubber inserts for an excellent grip.

Additional Information

- Profiles: Phillips Ph3, Flat 8mm.
- Overall length: 268mm; shaft length: 150mm.
- 13mm hex drive on shaft, for extra leverage.
- Hex shaft continues through handle for strength & impact resistance.
- Blades manufactured from Chrome Vanadium.
