

Double Ended Damaged Wheel Nut Socket 18.5-19.5mm

Some wheel nuts are manufactured with a permanently fitted chromium plated cap - these start off from the factory as a whole size, but over time due to the combination of corrosion and impact tool use, the wheel nuts can swell by up to 0.5mm. This double ended impact socket has one end machined to 18.5mm and the other to 19.5mm to overcome this issue.

Additional Information

- Double ended 1/2"D socket with 18.5mm and 19.5mm single Hex. Designed to be used with a 1/2" short extension such as Laser 2518.
- Damaged wheel (lug) nut removal sockets.
- Overall length: 63.5mm.
- Ideal for Ford 19mm chrome covered nuts that have swollen.
- Impact quality. Manufactured from chrome molybdenum.
