

Crankshaft Pulley Removal Tool - for Ford Ranger 2.0L

The Laser 8394 has been developed to allow the user to remove the vibration damper pulley on the Ford Kuga, Ranger and Transit (from 2019) when fitted with the 2.0L EcoBlue engine. This tool ensures the vibration damper can be removed without causing damage to the bonded rubber section of the pulley.

Additional Information

- Applications include: Ford Kuga, Ranger and Transit Custom (from 2019); FWD Transit (from 2018) & RWD Transit (from 2018).
- Engine applications include: 2.0L EcoBlue diesel, engine codes BC2X, YL2X & YN2X.
- Designed for the safe removal of the crankshaft vibration damper pulley.
- Equivalent to OEM 303-1657. Use in accordance with OEM instructions.
- For pre-2019 2.0L EcoBlue engines, see Laser Part No. 7334. Made in Sheffield.
