

Scarab Quick Connector Disconnect Tool with Multi

Removal tool designed for 2 button style quick connectors used on automotive fuel, oil, AdBlue[®] and coolant systems. The compact handle features a sand dipped textured finish for improved grip, together with a flexible head that allows for the spring-loaded scarab type jaws to be used one-handed and provide easy access to the quick connector buttons in tight spaces.

Additional Information

- Quick connector pliers allow one handed operation. Small, compact design with flexi-head allows for easy access in tight areas.
- Soft grip handle designed to sit in the palm with finger operated levers.
- Length: 130mm; Jaw width: 44mm.
- Designed for 2 button style quick connectors used on automotive fuel, oil, AdBlue[®] and coolant systems.
- Compatible with the Connect Consumables range of fuel line quick connectors.
