

Spark Resistant Fully Insulated Tool Kit 24pc

A fully insulated, spark resistant, twenty four piece tool kit which is essential for working on any live high voltage applications where flammable gases may also be present. Manufactured from hard wearing Beryllium Copper which, unlike steel tools, will not spark if struck or dropped.

Additional Information

- Spark-resistant tools manufactured exclusively from Beryllium Copper (BeCu).
- Fully insulated for safe operator use for live voltages up to 1000V AC and 1500V DC (IEC60900:2018 approved).
- Applications include hydrogen powered EV's (battery electric vehicles), oil and gas refineries, nuclear power plants and similar areas where flammable gases may be present.
- Set includes open end wrenches 10-19mm, 1/2"D sockets 10-19mm, 1/2"D T-handle, 8" pliers, 6" side cutters and 7 assorted screwdrivers.
- Supplied in a heavy duty plastic case with routed foam tray to retain tools securely.
