

Brake Caliper Bleed Screw Repair Kit

A simple caliper bleed screw repair kit that has been designed to allow broken and seized bleed screws to be drilled out and replaced with the minimum of fuss. Supplied in a blow mould case for convenient storage.

Additional Information

- Designed to work on brake nipples with standard threads between 5 & 11mm.
- Uses tapered brass inserts with central bleed screws.
- Includes all drill bits & tapered taps.
- Supplied with 2x small (1/8") replacement bleed valves (Part No. 62126) & 2x large (1/4") replacement bleed valves (Part No. 62125).
- All drills & taps considered consumable.
