

Low Profile Ratchet & Bit Set 40pc

A low profile 72 tooth ratchet ring spanner, together with a set of 38 interchangeable bits which fit directly into the ratchet head without the need for a bit holder, allowing it to be used in hard to reach areas. The spanner also features a fixed ring end, comes supplied with a 75mm bit holder extension, with all three bit holding ends containing a spring clip to keep the bits secure and in place.
