

Magnetic Multi-Groove Bench Vice Soft Jaws 155mm

A pair of multi-groove soft jaw inserts, suitable for use in a bench vice to offer more holding options on a wider range of materials. Manufactured from non-marring thermoplastic, and featuring strong magnets to keep the jaw pads securely in place, with 5 round holding slots to help grip smaller work-pieces. Ideal for automotive technicians, electricians, jewellers, modellers, hobbyists & DIY.

Additional Information

- Non-marring soft jaw pads, designed to fit a bench vice.
