

Drum Brake Clip Tool – for VW Group

A drum brake clip tool, designed for use on various Volkswagen Group vehicles, to remove and install the retaining clips when fitting/refitting brake shoes during brake servicing or replacement.

Additional Information

- Applications include: Seat Ibiza (2018 on), Skoda Rapid (2018 on), VW Polo (2018 on) & various Nissan vehicles etc.
- The integral magnet in the tool head ensures that the clip does not drop off during fitting or removal.
- Equivalent to VAG OEM T30114.
- Used to push the brake shoe clip on or off as required.
