

Low Profile Trolley Jack with Quick Lift - 4 Tonne

A low-profile trolley jack, with a 4-tonne lifting capacity and a lifting range of 100mm to 533mm, ideal for use on sports cars and lowered vehicles. It features a twin pump design, with a quick lift pedal, which enables the jack pad to be raised swiftly to the vehicles lifting point and the vehicle then lifted with a fewer number of strokes than a standard jack. The jack also comes fitted with an integrated rubber jack pad and a foam-covered handle, designed to prevent any damage to the vehicle, together with a built-in parts tray ideal for stowing wheel nuts etc.
