

Insulating Folding 3-Step Ladder

A set of insulated 3 tread folding steps, with a 3kv capacity, suitable for use when working on EV and hybrid vehicles. Great for access to the electric control units on larger vehicles (SUV's, 4 x 4's, LCV's etc). Manufactured from polypropylene and fitted with rubber feet, they also feature a carry handle for transportation and have a maximum capacity of 300kg. Ideal for use by auto electricians, mechanics, electricians, in the workshop and at home.
