

Weighted Socket Set 1/2"D 3pc

A set of 3 counter-weighted 1/2"D sockets designed for the removal of very tight fixings. The increased weight designed into these sockets reduces impact losses, increasing the effective torque delivered by the impact gun.

Additional Information

- Designed specifically for stubborn and high torque crankshaft pulley fixings.
- Applications include, but not limited to: Ford, GM, Honda, Jeep, Kia, Lexus, Mazda & Toyota vehicles.
- Designed for high torque applications.
- Sizes: 17, 19 & 21mm x 1/2"D. Single Hex (6pt) profile. Length: 97mm.
- Manufactured from chrome molybdenum steel for impact use.
