

Belt Tensioner Tools - PSA, VAG, FCA

A set of four auxiliary belt tensioner tools suitable for Citroën and Peugeot engines. Designed to be used with a suitably sized ring spanner, the adaptors allow the user to lever the belt adjusters back to ease the removal and fitting of the auxiliary drive belt. Manufactured from Chrome Molybdenum with a black phosphate finish.

Additional Information

- Applications include: Audi, Citroën DS, Fiat, Ford, Mazda, MINI, Mitsubishi, Opel, Peugeot, Suzuki, Seat, Skoda, Toyota, Vauxhall, Volvo & Volkswagen.
- Engine Applications include: PSA 1.4L, 1.5L, 1.6L, 2.0L, 2.2L (DV4, DV5, DV6, DW10, DW12 diesel).
- VW Group 1.8L, 2.0L petrol & 1.9L, 2.0L diesel engines.
- Designed to latch on to the adjuster & give a point to attach a spanner to apply force.
- Use with 17mm spanner or 3/8"D socketry; equivalent to PSA OE numbers 01099, 01099-A, 01099-B1, 01099-B2, 01099-C & 01099-D.
