

Electrical Connector Removal Kit 2pc - for VW Group

A pair of electrical connector disconnect tools, designed to be used to open the connectors latching mechanism prior to pulling the connector off.

Additional Information

- Suitable for most Volkswagen Group push & pull type electrical connectors. Small enough to be used where space is tight.
- Two-bladed tool for 1-10 pin connectors (1.5, 2.8, 4.8mm terminals).
- Three-bladed tool for 1-14 pin connectors (1.5, 2.8, 4.8mm terminals).
- Manufactured from aluminium alloy (6061).
- NOTE: Do not use on connector with secondary alignment devices (CPA - connector position assurance tabs).
