

Diesel Injector Adaptor - for Ford EcoBlue 2.0 Diesel

Developed from the original Laser Tools ECO-Blue puller the Laser 9092 allows the user to remove the diesel injectors from the Ford ECO-Blue 2.0L engines using the Laser 6092 Air Hammer Extractor. The 9092 clamps around the whole injector without the need to break or disassemble the injector.

Additional Information

- For extracting diesel injectors in one piece using Laser Part Nos. 6263, 6092, 8727 or any slide hammer equipped with a 5/8" UNF thread.
- Applications include: Ford Edge, Focus, Galaxy, S-Max (from 2018); Kuga, Mondeo, Ranger (from 2019); Tourneo & Transit (from 2016).
- Engine applications include: 2.0L EcoBlue diesel engines.
- Alternative to Ford OEM 303-1706. For equivalent please see Laser Part No. 8288.
- Made in Sheffield. UK Registered Design. IMPORTANT: Use of any vibration tool to extract injectors can cause internal damage to the injector. Always test & calibrate injector before refitting.
