

Flexi-Hose & Connector

Nylon flexi-hose and 4 jaw connector for use with both standard and high pressure grease guns. An ideal accessory for greasing fittings in hard to reach locations, this replaces any standard fixed hose that uses a threaded 1/8" BSPT connector.

Additional Information

- Flexible grease gun hose, with 4 jaw connector, for use where a standard fixed hose will not fit.
- Length: 330mm (13").
- Burst pressure: 10,000psi.
- Ideal for use with Laser grease guns, please see Part Nos. 0240 (120cc capacity), 0241 (500cc capacity).
- Always grease jaws before use.
