

Mini Combination Spanner Set 6 - 11mm 10pc

A set of 10 mini combination spanners from 4mm to 11mm in a smooth polished finish. The slim compact design makes them ideal for use when space is restricted. Each spanner comes with an open end and either a Bi-Hex (5mm to 8mm) or Hex head (4mm and 4.5mm). A useful set for mechanics, model engineers and computer technicians.

Additional Information

- Single Hex (6pt) sizes: 4, 4.5mm. Bi-Hex (12pt) sizes: 5, 5.5, 6, 7, 8, 9, 10, 11mm.
- 15° offset head for faster & easier use in tight spaces.
- Small sized spanners, ideal accessing small fixings, with slim design perfect for use in restricted spaces.
- Manufactured from heat treat hardened carbon steel with a polished chrome finish.
- Set of smaller sized miniature combination spanners (3.2 - 5.5mm) also available, see Laser Part No. 7265.
