

Brake Pipe Flaring Tool

Bench mounted brake pipe flaring tool for producing single and double SAE flares. Precision machined dies produce consistent, high-quality flares in four common pipe sizes; 3/16", 1/4", 5/16", 3/8". The long handle provides increased leverage and has a rubberized comfort grip coating. Ideal for fabricating off-vehicle replacement sections or complete systems, making it a particularly useful kit for classic car maintenance. A quality tool that produces professional results every time, presented in a sturdy, fitted case for safe tool storage.
