

Exhaust Expander Set 3pc

This set of three exhaust expanders enable the pipe to be extended parallel to allow additional tail-pipes or accessories to be clamped successfully.

Additional Information

- The three tools cover mild steel exhausts with diameters: 30 - 44mm, 38 - 62mm & 54 - 87mm.
- The tools will expand the diameter uniformly and also remove any other damage that may have occurred.
- Can be used on a mild steel maximum thickness of 1.2mm pipe. Hexagon shaft is turned with 16mm spanner.
- Manufactured from Chrome Vanadium & steel.
- Supplied in a blow mould case for easy storage.
