

Tyre Bead Depressor

A tyre bead clamp, designed to clamp on the wheel rim and hold down the tyre bead below the wheel rim's bead retainer and in the drop centre of the rim making it easier to remove or fit the tyre. Particularly useful when working on stiff walled or low-profile tyres.

Additional Information

- Hands-free clamp to hold down the tyre bead to help during removal & fitting.
- Size: 130 x 72 x 160mm.
- Weight: 290g.
- Manufactured from Polyamide (PA) & 30% fibre for strength.
- Universal tyre changing tool.
