

Knuckle Ball Joint Tool - for Land Rover/Range Rover

Part of a range of vehicle specific tools, for the removal and fitting of bushes and ball joints, without having to remove suspension legs, subframes, wishbones, trailing arms etc from the vehicle. Designed to be used in-situ, although many can also be used in a workshop press if circumstances require.

Additional Information

- This kit has been designed to allow the top and bottom steering ball joints fitted to the Land Rover & Range Rover models listed to be replaced with the axle casing attached to the vehicle.
- Applications: Land Rover Discovery 2 (1998 - 2004) Range Rover P38 chassis (1995 - 2002) - upper and lower ball joints.
- Equivalent to OEM 205-718, 205-732, 205-733, 205-719.
- Use with Ratchet Ring Spanner - Flexi Head 19mm.
