

## Impact Power Bar 1/2"D 370mm

Power bar with built in impact system allowing the bar to be loaded with one hand and then impacted with a hammer for significantly increased force. Ideal where air tools are not an option.

### Additional Information

- Bi-directional for removing left or right handed stubborn nuts and bolts using combined hand and impact force.
- Swivel head gives access to difficult areas.
- Use with impact sockets and bits.
- Length: 370mm x 1/2"D.
- Impact-absorbing composite grip handle.
