

SAC Clutch Compressor Master Kit

Combined clutch alignment kit that includes the BMW style short clutch plate alignment tools and more traditional centre plate alignment tools for use on non-SAC clutch kits as well as other SAC clutches. The clamping frame combines 3 and 4 bolt fixing slots to give a strong, lightweight frame for 6 or 8 bolt clutch covers.

Additional Information

- Applications include: Audi, BMW, Fiat, Ford, Mercedes-Benz, Renault, Seat, Skoda, Vauxhall/Opel, Volkswagen and Volvo.
- Allows the correct disassembly and assembly of self-adjusting clutches.
- Includes 2 interchangeable and expandable centre plate alignment tools, with spigot bush pins in 12, 14, 15, 16, 17, 18 and 19mm diameter.
- Kit also contains 6 BMW style short clutch mandrels, for use where the clutch cover is fitted with a transit locking device.
