

Timing Tool Kit - for JLR 2.0 Diesel AJ200

Developed for the 2.0L diesel engine from JLR. The kit contains all the essential components required to lock the new JLR 2.0L "Ingenium" diesel engines in their "timed" position so that the engine timing chain can be safely removed and replaced and/or the engine timing checked.

Additional Information

- Vehicle applications include: Jaguar E-Pace (from 2017), F-Pace (from 2016), XE (from 2015) and XF (from 2015). Land Rover Discovery (from 2017), Discovery Sport (2015 - 2019), Range Rover Evoque (2015 - 2019), Range Rover Sport (2016 - 2018) and Range Rover Velar (from 2017).
- For locking the engine into the timed position so that the engine timing chain can be removed/replaced and the engine timing checked. Should be used with fuel pump locking tool, Laser Part No. 7431.
- Engine codes: AJ-200D, 204DT, 204DTA; AJ200D, AJ200, 204DTA and 204DTD. For the AJ200 petrol please see Laser Part No. 8507.
- Equivalent to OEM JLR-303-1625, JLR-303-1631 and JLR-303-1630.
- Made in Sheffield.
