

Intelligent Battery Charger 4 - 120Ah

Designed for charging all types of Lead Acid battery including wet, MF, Ca/Ca, AGM and Gel found on motorcycles, cars, boats etc. 6v/12v DC2A and 12v DC4A.

Additional Information

- Suitable for all types of Lead-Acid Batteries (Wet, MF, Ca/Ca, AGM and GEL) with Rated AC Voltage 220v-240v, 50-60Hz. 2.0A/4.0A, 70w, Automatic 6v/12v.
- Microprocessor control adjusts current to match battery type and condition. LCD screen indicates charge level.
- Winter mode for specialised battery charging in winter weather conditions. Automatically switches to maintenance mode when battery is charged.
- Protection: Overcharging, overheating, short circuits, reverse polarity, low voltage. Insulation Class IP65.
- Complete with BS plug, Battery clips with 1.5m (connected) cable, O Ring with quick connection. CE, UKCA & RoHS compliant.
