

Deep Socket 17mm 1/2"D for Strut Channel

A 17mm 1/2"D deep socket, designed for use in Unistrut-type channels. This thin-walled socket features two flattened sides, allowing it to fit neatly into the slotted channel of metal framework. Ideal for repetitive tasks and installations, it is suitable for use by builders, construction workers, electricians, plumbers, ceiling fitters, and HVAC engineers.

Additional Information

- Deep socket for Unistrut style channel fixing bolts.
- Size: 17mm single hex (6pt) x 1/2"D; length: 72mm. Deep socket to accommodate stud length & channel depth.
- Manufactured from Chrome Molybdenum with black phosphate finish.
- Restricted access socket, ideal for use when working on slotted channels & metal framing systems.
- Other sizes also available, please see Laser Part Nos. 8695 (13mm) & 8019 (19mm).
