

Wall Mounted Magnetic Retractable Barrier 5m x 48mm

A high visibility pull out barrier suitable for closing off designated areas or restricting access to authorised personnel only. This wall mounted barrier is supplied with a range of fixings allowing it to be easily fitted onto a flat surface, it also features integral magnetic mounts enabling it to be quickly attached to any ferrous surface to temporarily cordon off an area for safety. Ideal for use in the workshop, factory or warehouse.

Additional Information

- Retractable safety barrier.
- Spring loaded webbing belt, extends to 5m in length, with locking function and integral magnetic mounts.
- Also supplied with additional self-adhesive and screw fixings.
- Ideal for workshop use to cordon off areas for safety, including when working on hybrid/EV vehicles.
- 3m version also available, please see Laser Part No. 8528.
