

Anti Spill Coolant Funnel Set

A coolant funnel set complete with 5 adaptor caps to fit various vehicles, including Ford and Vauxhall/Opel models. The adaptors allow for the funnel to connect directly to the header/expansion tank to provide a fast and effective way to re-fill or top-up the cooling system, with the shut off valve helping to reduce over-filling and coolant spillage.

Additional Information

- For quick, easy coolant filling on a wide range of cars & vans.
- Set includes: 1x funnel with shut off valve & lid. 1x threaded adaptor for GM group vehicles. 1x threaded adaptor for Ford vehicles. 3x bayonet style adaptors, suitable for Chrysler, Honda, Hyundai, Mazda, Mitsubishi, Nissan, Opel, Subaru, Toyota, Vauxhall.
- Also includes: 1x extension pipe & 2x 45 degree adaptor for accessing hard to reach filling points.
- Manufactured from ABS plastic with steel bayonet cap inserts & springs, rubber O-rings.
