

Insulating Stool

A high stability insulating workshop stool for improved working comfort when working on any vehicle but particularly EV and hybrid vehicles. Great for access to the electric control units on larger vehicles (SUV's, 4 x 4's, LCV's etc). Manufactured from impact resistant polypropylene and fitted with rubber feet. Also ideal for screen and vehicle roof access.

Additional Information

- High stability, high impact resistance & high slip resistance made from high impact copolymer polypropylene.
- Rough non-slip platform surface, with rubber tipped legs for greater adherence to the floor.
- Platform dimensions: 525 x 525mm, floor dimensions: 575 x 575mm, surface height: 304mm.
- 45kV safe working load, meets UNE 204001:1999 insulating platforms for electrical purposes standard.
- Suitable for indoor (dry) conditions.
