Fork Piston Holder - Triumph

This tool is designed to allow the complete disassembly of the front fork internals by holding the forks internal damper cylinder while undoing the fixing bolts.

The information given below is for reference only.

The Tool Connection Ltd recommends the use of Manufacturer data.

The Tool Connection Ltd cannot be held responsible for damage to motorcycle or personnel whilst using this tool kit.

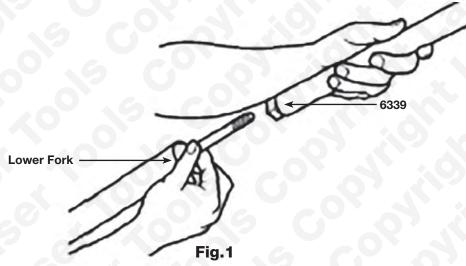

Instructions for use:

Once the fork top and spring has been removed separate the fork tubes and remove the locknut from the damper rod and insert the tool over the top of the damper rod square end first.

Push down into the fork tube until the square end engages with the square in the top of the damper cylinder.

Using the hexagon end hold the cylinder still and undo the damper cylinder fixing bolt from the bottom of the fork. See Fig.1.

Applications overleaf.
