

Wire Brush 4 Row

A general purpose wire brush suitable for a wide range of applications including rust and corrosion removal, together with cleaning off loose paint and debris in preparation for welding or attaching electrical connections. It features 4 rows of steel bristles approximately 22mm in length, together with a heavy duty wooden handle that incorporates a hole for hanging up when not in use. Ideal for use in the workshop, bodyshop and at home. Also suitable for cleaning patios and barbecues.
