

Flexi-funnel

Flexi pipe funnel designed for automotive use with filter and stepped outlet nozzle for efficient re-filling. The flexible spout provides better fuel tank access and can also be detached for cleaning and storage. Durable plastic construction with a handle and deep rim for a spill-free, easier refill. Colour-coded for oil, making it easy to identify the right funnel for the job.

Additional Information

- Flexi-funnel complete with filter & handle.
- External diameter of mouth at widest point 135mm.
- Lightweight, durable plastic composite construction.
- Suitable for petrol, diesel, oil, brake fluid, anti-freeze & windscreen wash.
- Screw fit nozzle can be detached for cleaning & storage.
