

TDC Indicator - for Italian Vehicles

An adaptor that allows a DTi gauge (not included; see Laser 2584) to be fitted to one end and the unit then screwed into the spark plug hole for identification of the exact TDC position.

Additional Information

- Applications include: Alfa Romeo, Fiat and Lancia.
- For deep seated spark plug holes (14mm).
- Equivalent to OEM 1 860 895 000 and 1 895 879 000.
- Can also be used on some Ferrari engines.
- Made in Sheffield.
